Hi Rick,

We received the application for Healing Arizona Veterans to be certified as a Qualified Charitable Organization (QCO) and have reviewed it.

With the information provided we were able to approve **Healing Arizona Veterans** as a Qualifying Charitable Organization (QCO). As a result, the organization will appear on our published list of 2021 QCOs on the Arizona Department of Revenue website. The next published list is scheduled for Friday by COB. Donors will not be able to claim a credit for your organization until after the list is published.

After it is published, donors will be able to choose **QCO code 22353** to take a credit for donations made to your organization.

This email has been sent as a courtesy to expedite processing. We will also send a letter and certification in the mail.

Best regards,

Khadijah Jones
